

SONAR

S-ZSM 02

Universal magnetic protection

This customizable smart protection can be applied to any valuable item. It can be embedded with different technologies and stuck with price and barcode labels. Its thread is made of steel covered by a soft protective material. It can be opened by our magnetic detacher or by any other in the market. Thanks to its features, our protection is very handy versatile at the cashdesk and is reusable.

S-ZSM 02

One single anti-theft protection to be applied to most of the products.

Characteristics

Antitheft re-usable protection.

It prevents shoplifting. It is recommended for: jewellery, gift and fancy goods, leather goods, footwear, clothing, house hold objects, fashionwear, sportswear, video-games, etc. It can be applied to any item.

Design

Smart, soft and small. It does not alter the design of the protected item. It preserves the original product look.

Structure: 1 piece

Sturdy, to be applied by its metal covered thread.

Use

Attaching: quick and easy with one hand.

Detaching: magnetic detaching.
